

### **Listing of the Claims**

This listing of the claims replaces all prior versions and listings of claims in the application.

Claim 1.-29. (Previously Cancelled)

Claim 30. (Currently Amended) A method for controlling termites comprising applying a termiticidally effective amount of a liquid termite composition comprising

- (i) bifenthrin and
- (ii) imidacloprid,

wherein the amount of bifenthrin is equal to from 0.0005% by weight to 0.50% by weight of all components in the composition and the amount of imidacloprid is equal to from 0.0005% by weight to 0.50% by weight of all components in the composition to a locus where termite control is needed or expected to be needed, wherein said locus is selected from a termite-infested structure, a structure that is expected to be termite-infested, or a location adjacent to said structures.

.

Claim 31. (Cancelled)

Claim 32. (Previously Presented) The method of claim 30 wherein the weight ratio of bifenthrin:imidacloprid is between 1:2 and 1:20.

Claim 33. (Previously Presented) The method of claim 30 wherein the amount of bifenthrin is equal to from 0.001% by weight to 0.005% by weight of all components in the composition and the amount of imidacloprid is equal to from 0.01% by weight to 0.02% by weight of all components in the composition.

Claim 34. (Previously Presented) The method of claim 30 wherein such termites are of the species *Reticulitermes flavipes*.
